

# Fundamentals of Oncology Acupuncture

Online Continuing Education Course - 12.5 NCCAOM PDA points

## About the class

This interdisciplinary continuing education course provides acupuncturists with the knowledge to treat cancer-related side effects safely and effectively. You will learn scientifically-tested methods to care for cancer pain, fatigue, hot flashes, and neuropathy. Participants will also learn about cancer prevention, detection, and treatments, communicating with patients and families, and herb-drug interactions.
